Express View

Prerequisites
▪ Android device with operating system version 4.0.X (Ice Cream Sandwich) or higher.
▪ iOS device with operating system version 8.4 or higher.

Good things to know
▪ Only one account can be enabled for Express   View on a device.
▪ If a device is lost and Express View is enabled, Express View can be disabled on any device by changing
  your account password via Service 1st Online banking.

Set up:
▪ Log in to the mobile app.

▪ Choose the hamburger menu ≡ in the upper left hand corner.

▪ Choose "settings."

▪ Under "user settings," you will see "Express View Settings"

▪ Select to "enable" or to "disable."

iTEXT

Simply logon to Service1st@Home to register your phone with iTEXT, then text any of the commands
below to 90703 for immediate access to your account information. Or visit www.service1.org/ from your
mobile device to browse our website or to be redirected to our mobile site to view your account informa
tion. It's that simple!

▪ S1 BAL SXX (or LXX) – Get a balance on your share or loan.
▪ S1 HIST SXX (or LXX) – Get transaction history on your share or loan.
▪ S1 NEXT – Get the next five transactions from history (when requesting HIST).
▪ S1 TRAN SXX LXX amount – Transfer any whole dollar amount from SXX to LXX.
▪ S1 Lock – Lock your Service1st@Home access.
▪ S1 UNLOCK – Unlock your Service1st@Home access.
▪ S1 HOURS – Returns branch hours.
▪ S1 CONTACT – Returns toll-free phone number for Service 1st FCU.
▪ S1 COM – Get a list of available iTEXT commands.
▪ S1 STOP – Will deactivate your mobile device from your account.

SXX is your share ID. LXX is your loan ID. Both are available via Service1st@Home. Commands must
contain spaces where shown.

Mobile Banking Basic Services (non-app)

Do you have a Straight Talk plan or a Windows phone and can't access your account through a down
loadable app? Check out our Mobile Banking Basic Services tool!

Please note that not all phones or plans will work with this service.
